## Get to know your MFAP

Everyone faces challenging and stressful events in their lives. Most of the time we can handle these situations ourselves; other times we could benefit from some support.

Your MFAP is a professional, confidential, and proactive service to support you with a wide range of personal, family, and work-related concerns.

### **What benefits are available to me?**

Your MFAP is here for you whenever you need it, 24 hours a day, seven days a week, 365 days of the year.

Within a confidential environment you can receive counselling for any challenge — whether it's a first step in facing a possible addiction, or managing day-to-day stress.

### **We guarantee your confidentiality.**

We are Homewood Health, a trusted company with years of experience delivering the best possible support for clients like you. Everyone is guaranteed confidentiality, as required by law. You won't be identified to anybody — including your employer.

People frequently use an MFAP for personal challenges such as relationship concerns, family or parenting issues, anxiety, depression, addictions, grief, coping with health issues, or work related challenges.

We will match you with a counsellor who suits your needs

and provide you with short-term solutions. If you require additional, longer-term treatment or specialized support, our counsellors may refer you to external resources which could include your personal group benefits plan, if applicable.

### **Depression Care – an enhanced service for HPFF**

Innovative mid-to longer-term, work-focused treatment for individuals with moderate to severe anxiety and/or depressive symptoms. Treatments services are designed for individuals who remain on the job but are struggling with acute, or long-term, depression and/or anxiety symptoms. Up to 20 hours of treatment is available.

### **Trauma Care – an enhanced service for HPFF**

Specialized treatment & resiliency training for individuals who are struggling with PTSD, mood and/or anxiety disorders. Our unique model uses industry best practices including Cognitive Behavioral Therapy (CBT), Dialectical Behavioral Therapy (DBT), resiliency training and innovations like Mindfulness and Metta Trauma Therapy.
